To Whom It May Concern:

My name is Andrew Tarcha and I am writing to you in regards to your job posting on LinkedIn.com for your Part-time intern, motion graphics, Huemen. I am currently enrolled at Alfred state college working on my bachelor's degree in their Digital Media and animation program. I have been experimenting with design and editing software's such as Adobe Photoshop and Illustrator, along with video production with premiere pro and After effects throughout my time at Alfred state and continue to experiment with different new techniques and discovering new trick that were before unknown to me. While at the same I have gained experience in modeling with Maya along with testing and experimenting with Mudbox. I have designed kinetic motion posters for events around Alfred state college.

I think I would be a great fit for the position. I work well when it comes to working in teams when given an order or request, I will do everything I can to make sure the job is done properly and on time. I always keep in touch with the people I work with giving weekly updates or even daily updates depending on the importance of the tasks that have been given to me and my teammates.

Thank you for your time and the opportunity and I hope to hear from you.

Andrew Tarcha
